The Batten Disease Family Association (BDFA) is a charity which supports families with children who suffer from a little known, rare and fatal disease, Batten Disease. A child may develop normally in the first few years of life but then deteriorate rapidly with seizures, epilepsy, vision and hearing loss and the ability to speak. They become immobile and totally reliant on others for their every need with death occurring in childhood or early teens. The BDFA aims to support the families, raise awareness and facilitate research into this group of devastating neuro degenerative disease.

Thank you for supporting our charity for this year

Batten Disease
